

ZDTV Wireless Keyboard for HDTV

Model 9005

Plug a Windows® computer into your HDTV, then enjoy ALL the Internet from your favorite chair with the ZDTV Wireless Keyboard.

Enjoy digital pictures/videos/music and ALL of the Internet played through your High Definition Television and/or home entertainment center. Just plug a Windows computer into an HDTV, then use the ZDTV wireless keyboard from the comfort of your favorite chair.

ZDTV includes a wireless keyboard with built-in touchpad mouse, extra-function media playback controls, and ZDTV software to simplify setup and use of a Windows computer plugged into an HDTV.

ZDTV provides a simple user interface for sharing the vast array of Internet options with family and friends, completely controlled from the comfort of your favorite chair. The full-sized keyboard provides the flexibility and extended range you need to select videos or music, search, review or compose email, or work in any application you choose to launch. ZDTV's Screen Magnification Controls make it easy to read even the smallest print from your favorite chair.

The ZDTV wireless keyboard can be used with Windows XP, Vista, and 7 computers. ZDTV power management software lets you enjoy extended viewing sessions without the interruption of a sleep mode.

The ZDTV keyboard provides the full complement of 12 standard function keys, a numeric keypad, and ten extra-function keys. Extra-function keys on the ZDTV keyboard include:

- 1)** Shortcut to Media Center; **2)** Shortcut to Media Player; **3)** Shortcut to Internet Browser;
- 4)** Viewer Magnification On/Off; **5)** Magnification Window Navigation; **6)** Content Play/Pause;
- 7)** Stop Play; **8)** Mute Sound; **9)** Volume Up; **10)** Volume Down.

The ZDTV keyboard uses power management and an intelligent sleep mode to extend the life of four AAA 1.5 volt Alkaline batteries powering the keyboard. A set of batteries will last six months or more under normal use.

System Requirements

To use the ZDTV wireless keyboard, you need a computer with Windows 7, Vista, or XP.

To use the wireless keyboard to enjoy the Internet on your HDTV, you need to connect a Windows 7, Vista, or XP computer to an HDTV; and that computer needs high-speed Internet access. Note that the CPU and graphics processor in the computer affect the quality of Internet videos, and so does the speed of your Internet connection.

ZDTV provides Windows 7, Vista, and XP computers with these features:

- * Wireless keyboard with built-in touchpad and long-range wireless
- * Media Center and Media Player keyboard hot-buttons
- * ZDTV software for easy viewing of the Internet on your HDTV
- * Keyboard hot-buttons to expand images for easy viewing

For the ultimate system, we recommend a Windows 7 computer with an HDMI port, which provides the easiest setup and the best support for Media Player and Media Center. For more details, see www.zoom.com/ZDTVsystemspeg
